The Expositor adds: here are yet four towns to be heard from, which in all probability will not change the result materially. We learn that Bergen gave a Democratic majority of about 24. Hamburg and Coon will be likely to give small Democratic majorities, but Whitestown is almost unanimously Republican.

RACINE ITEMS .- Josephine Clarine, the young woman who is in jail for stealing the elethes of the pupils, from the High School building last week, has made up her mired to save the county the price of her heard and other overgreen. This when he had building last week, has made up her mird to save the county the price of her beard and other expenses. This plan she proposes to carry out by refusing the excellent fare provided for her by the jailer, and see if she can can't live without eating. In fact she has eaten nothing since Monday, and says she will dispense with that duty in future. DIED .- The little boy scalded in Raymond the other day, who was a little son of William Wilcox, died on Wednesday norm-ing. The little fellow was playing beside the store, when it fell down and precipitated over the child the contents of a boiler of scalding water. On's Wooster and Ketchingman were sent for, who did all they could to alleviate the sufferings of the little fellow without avail. The child was about eighteen months old.

Southern Protest Against the Vivginia View of Harper's Ferry.

From the Mobile Register, We publish elsewhere a remarkable article, from the Richmond Enquirer. We do it in order to place upon record our unqualified earnest, indignant protest not only against the conclusions of the writer, but against the tone and spirit of the article. We are unwilling that such a graphic security accordingly. tone and spirit of the article. We are unwilling that such a cravenly outery shall go before the Northern public without at least one voice of dissent from the South. It was disgraceful enough that the inroad of twenty-two wretched burder maranders should cow a town of a couple of theorem, but could find extenuating circumstances in the paralyzing effects of a panic originating in surprise and atterignorance of the extent of the danger. Then it was a bitter pill to swallow, that Gov. Wise should praise (if, indeed, we may trust the report of his own organ) his citizen soldiery for not having shown the white feather white on their way to take a snift of guupowder. But now, for a Southern paper to go before the world with what the world will consider a cowardly confession, and what we denounce as an unmitigated and what we denounce as an unmitigated falsehood, is more than we can bear.

The burden of the Enquirer's wallings is, that the institution of Stavery requires the assistance of the General Government, that it has no self-sustaining power, and that to propose in peace and security we must made.

assistance of the General Government, that it has no self-sustaining power, and that to repose in peace and security we must needs trust to the staiwart arms of our beloved brethren—the factory hands and mechanics of the North. "Protection (meaning Federal protection) of Slavery is demanded by the blood of slaughtered citizens, and the traitorous Southerner that dures deny the right, is even more criminal than the inmates of the Charlestown jail." We profess to love the South with an ardent heart's devotion, and we feel in this moment that we love it as the Enquirer is incapable of loving it; yet we spurn the above sentiment as unworthy of Virginia, recreant to Southern dignity, and insulting to Southern honor. We in Alabama, and in the other Southwestern States, have more slaves than ever they had in the negro-breeding border States; and not only are we fully competent to take care of them in subjection, but to formish to Virginia, if she cannot deal with hers, arms as steady and rifles as true as the Enquirer's clanors will be likely to get from the Federal Government and the Northern States. We nove expect to need such aid, and would seem to ask for it.

We are heartly sick of this unmanly whining; this crying like a spanked baby over imaginary griewaucs. We have hempeuough grown in the South for all have rebels and grown in the South for all stave rebels and their white instigators; we have rifles and bullets enough to protect our wives and children, and we should thing back as an insult an offer of Federal protection, were it made. True dignity is violated by the undue importance given to this miserable raid of a few fauntics; it should have been classed with a Beltimore side or a New Colours that of a few fanatics; it should have been classed with a Baltimore riot or a New Orleans election—a, heinous crime, to be sure, but not implying a frightful danger to the South.— Yet Southern journals persist in calling it an insurrection; persist in speaking of it in a quaking voice and trembling tones, as though the whole social fabric of the South were but a magazine of powder, which awaited the slightest spark for an irretrievable explosion. And, such, indeed, is the impression most signiest spark for an irretrievable explosion.

And, such, indeed, is the impression most industriously produced abroad, and even among the finid scale of our own section, by this silly, craven policy—contemptible anywhere, and most unw rithy of Southern men.

The facts upon which the Enquirer predicates its momensical effaction, are untrue in themselves, and their allegation, intrinsically. dicates its nonsensical affusion, are untrue in themselves, and their allegation intrinsically absurd. According to its own showing the slaves might run away from the border counties, yet they do not. Forthern assistance.

The President's attention has again been called of from the preparation of his annual message, to a consideration of the difficulties in the Democratic camp at Chicago. The Douglas men have raked up a variety of charges against Cook, the Postmaster, and charges against Cook, the Postmaster, and are moving Heaven and earth to oust him.— Cook has been sent for to come to Washing ton and face the music.

A story is circulating to the effect that the

Republicans intend to stop the clamor of the Republicans intend to stop the clamor of the Demoorats, in charging them with complicity with the Harper's Ferry rioters, by moving the appointment of a committee to investigate the conduct of Secretary Floyd and the Cabinet, in disregarding the warning letter received from Cincinnati, and leaving the public property unprotected. This would effectually turn the tables on the agitators, and about this treatment of the Victorian company. shut their mouths, if the New York election has not sufficed for that purpose. Fillibuster Walker has, at last, an oppor-

This raid furnishes the Administration with the opportunity it has long desired, to intervene in the affairs of Mexico, the more especially is Cortinas is backed by the Mexican popu-ation on the other—side of the Rio Grande, and his avowed purpose is the re-conquering of Western Texas. It is disgraceful to the War Department, that the frontier should be thus left exposed to the altacks of banditti.

INDIA-ITS PAST HISTORY AND PRESENT CONDITION .-- A lecture upon this subject will be delivered in Bowman's Hall on Monday evening by Major A. G. A. Constants. of Canada West. Since the revolt of the Sepays, particularly, the present and future of India is a theme in which all intelligent persons must feel a deep interest. Major Constable is remarkably well qualified to give information upon it. He has resided fourteen years in India; six years in the military, and eight years in the civil service of the East India Company, and in both capacities had ample opportunities for observation of the natives of India. He will give his views mutiny, and upon the future prospects of the country. His lecture has been received with much applause at Buffalo and in other cities, and we trust he may have a large audience on Monday evening in Milwaukee.

The Lake Shore Rail Boad.

Soutinel stated that " Messrs. Tunis & Co., get their papers via the Detroit & Milwaukee Railway, 1 to 5 days in advance of the mail," and then takes us to task for doing injustice to the Lake Shore Rail Road. Now what the Sentinel said was simply that Messes. TUNISU & Co., had made arrangements for gatting the New York dailies I to 2 days in advance of the mail, and this is substantially true. Wherein therefore has the Sentinal dene injustice to the Lake Shore Road? During the past season we have received our Eastern mail by the Detroit & Milwaukee Railway uniformily one day earlier than we ever got it when the mail was carried by the way of Chicago. Now the mail again comes by the Chicago route, and we think therefore, it is highly probable that Mosses. Tunts & Co., can get the New York dailies ne day in advance of the mail.

This we consider no disparagement, to the Lake Shore Railroad. The distance to principal Eastern points by the D. & M. Railway, is nearly a hundred miles less than by the way of Chicago. The fault, as the writer says; however, may be in the P. O. arrangements, and if so, we hope that what has been said on the subject may be the means of correcting it. It was, therefore, with regret, that we heard of the change of the route, knowing well the inconvenience which we, in common with the business community at large, would be likely to suffor by that change. We fully agree with all the writer says about the excellent management of the Lake Shore Railroad. We entertain no other than the most friendly feelings towards that Road. It has justly earned a reputation second to no other railroad in the country for regularity and despatch, and a more gentlemanly set of officers than those This is one of the "institutions" of Mil- who manage it, from Superintendent down waukee. FIGHT AMONG REPORTERS-WHAT THE FIGHT WAS ABOUT. -Two of our city news-paper reporters, named Smith and Myer, had quite a fight in one of the city syster and quite a light in one of the city syster shops, in consequence of one charging the other that a notorious prostitute gave him fifty cents a line to notify the public of the magnificence of her establishment and its locality. The following is the article reference. red to by Myer, which appeared in the Press and Tribuns of Oct. 13th. We crase We erase the place of residence, which it was the design of the article to covertly advertise, lest we be also accused of inserting the article as an advertisement. Myer was not satisfied with whipping Smith, but offered to prove that he received from the prostitute fifty cents a line for the following, designed to call at-tention to her house, and thereby get it cus-tom:

om:
We understand that both of the reporters were bound over to keep the peace:

An Incentous Device .- In an old volume, "A Miscellany of Serious Merriment," there is a story told of an English sea captain who was bound on a considerable voyage, having ing on board thirty passengers—lifeen Jews and fifteen Christians. Being overtaken by a violent storm, it was deemed a matter of safe-ty to toss overboard half the passengers in order to lighten the frail vessel. 'A dispute arose as to whether the Jews or Christians should be the victims; but at last they mutually agreed to leave it to the captain, who decided that he would place them in a circle and throw overevery ninth man until the half were overboard. This was satisfactory. He placed them in the following order—the C's being Christians, the J's Jews: CCCC11111CC1CCC1C11CC111C11CC1.

By counting from the first C, and marking out every ninth letter, the ingeniousness of the captain's plan will be seen at once.

"Trip to Mount Vernon."

We are requested to call attention to the article on our third page bearing the above caption. It furnishes some interesting particulars concerning Mount Vernon, its purphase and its future prospects. As the home of Washington is soon to come into the posassion of the women of America, and is hereafter to be restored and beautified by them, and to be entrusted to their care, it is fitting that every woman of our country should inform herself of the facts in the case. It is hardly possible for any intelligent woman not to feel an interest in the object of the Mount Vernon Association, which is. ultimately, to render this early but now decaved home of the Father of our country a nucleus around which all truly patriotic souls shall be attracted-the Mecca to which all American hearts shall delight to make

ocratic programme for 1850:

The present is a period of momentous import in shaping the destinies of these Southern States. Principle and party expediency cannot be reconciled. The Democratic party must be a Southern party or no party. It cannot serve slaveholders and also free-soilers with their arrogant and rulnous pretentions.—There is need alike of wisdom and of courage. The There is need alike of wisdom and of courage. The people want fearless and able leaders to direct our councils and stape our destinies; men who float upon the surface and impotently ride the current, incumber public station. They are useless to the public, however potent in obtaining personal preferment. The day of compromise and compromisers to present public intrinsers at the South demands one of sterier stuff to maintain rights without equivocation or akrinting from any consequences forced upon us by the North. We go further, and say that the Southern States will not submit to the imagnantion of any Black Republicate President what very—that is any man elected by the Republican party, as such, in its capacity of a separate and distinct political and sectional organization. In such an event, we believe all the Roll States, with one negard, and at the same moment, will go out of the Union, and set up for themselves, and that the other Southern States. Virginia included, will withmately, if not immediately, take precisely the same step. We confess that, until recently, we have never so believed or though or dreamed, but there is now no mistaking the temper and purpose of the Southern people, and the ominous signs of the fines."

The madness of "old Brown" seems to have affected the whole South. Happily, tial election, to recover their reason. We should admire to see the chivalry of Virginia, who have just been "scared out of their boots" by seventeen white men and three "niggers," undertake to resist "the inauguration of any Black Republican Precident whatever." Mr. Giddings at Syracuse.-Joshua Mr. Giddings in going through Syracuse on Saturday, was astonished to find the depot crammed with people anxious to testify their respect and affection for him. The interval between the arrival and departure of the trains was but four minutes. As Mr. Giddings stepped upon the platform to pass from one train to another, in company with Henry B. Stanton, who announced him to the people, three hearty cheers burst forth from the crowd. Among his bundorous remarks, Mr. Giddings said that the gentlemen down South who were in need of heads, or brains, and who advertised for him, could have his head when he got through with it if they would hand over the \$5,000 reward to the executors of his will.

THE PANIC IS CHARLESTOWN, VA. Proclamation by the Mayor-Northern Mon Warned to Leave.

From the Baltimore American, Nov. 14.

We learn that considerable excitement still exists at Charlestown, Vn. caused by numerous incendiary fires in the neightorhood, and a belief among the inhabitants that emissaries of Old Brown are still lingering about. The Mayor of Charlestown has issued the following produmntion: ing proclamation:

Information has been received that the British Government lineads superseding Gov. Douglass at Vancouver's Islami, who has complicated our relations by his off-mative course. Mr. Howe, of Nova Scotia, will probably succeed him. In that event Gen. Harney would probably be ordered back, and thus the whole difficulty be settled amigably.

given him the swift benefit of a drum-head court martial. In that event, no sympathy for him would have been excited in the North, for he would have had no opportunity of making incendiary speeches for effect, and, consequently, nothing of the character of the hero or the martyr would have attached to him, even in the estimation of Garrison and Wendell Phillips.

We, therefore, agree fully with our cotemporary of the Frederickshurg News in the opinion that the absurd and horrid nonsense about Gov. Wise's pardoning old Brown sho'd be condemned and scouted by every sane man in Virginia and the South. The impertinent Question, come from whom it may, whether Northern Abolitionists or Northern conservatives, should be resented in Virginia and by There are upward of twenty candidates for the Constitution of the ground the first day, 117 votes will elect the Speaker. There are upward of twenty candidates for

the vacant Marshaiship of Western P-nn-sylvania, and the President is much exercised about a choice.
Gen. Joe Lane has returned, but with chop-fallen prospects, since the Oregon elec-tion. Mr. Buchanan, and others, who fa-vored his pretensions before, give him the cold shoulder now.

The dissolution of the Union is to be the

An idle Threat.

The Richmond Wing, under the influence of the Harper's Verry panic, uters the following idle threat:

showing the use that is to be made of the Harper's Ferry for Henry A. Wise's benefit, proclaims also the ultimatum which it supposes the South will offer to the Northart the Charleston Convention. Its outgivings on these two points are somewhat amusing, as well as startling.

After reading the Enquirer's article, we feel perfectly assured that no elemency, no commutation of sentence even, will be conceeded by Gov. Wise to John Brown and his fanatical associates. The Governor's "firm ness" in excenting the laws to the utmost

Of Mr. Washington I would say, en presault, that I found him a very contreous and agreeable gentleman. He has purchased a property in Fauquier country, Va., to which point he intends removing with his family, when he hands over the documents.

Westford, a colored man, whom we encountered at the garden gate, is a character of no inconsiderable interest, and is quite a valuable adjunct to Mt. Vernon and its belongings. He told me he came to this spot but a couple of years after the General died, but when only eleven years of age remembered seeing him lying in his coffin. He dwelt with some warmth of the time when Mrs Washington lived, and the distinguished personages who from time to time had visited there, the bands of music frequently on the grounds, detailed from the navy yard, to dis-

I should judge the mansion was some 125 or 150 feet above the water's edge, and mounting still higher to the cupola, one's pleasure is still increased, not only by the glorious panorama presented to the eye, but the feeling which crowds itself upon you, that you are standing in the very presence of our country's Hero, who, with apy glass in hand, from the same spot, sixty years ago, gazed upon these self-same scenes and objects which now so gladden the heart of the visitor.

My fears of treepassing too much upon your columns deter me from extending this hasty letter, otherwise, I would give, in detail, many objects of interest and value within this mansion, which my eyes rested upon.

"A thing of beauty is a joy forever;" and well and truly will I remember the pleasure of my first visit to the home of Washington.

I ascertained from Mr. Herbert that it was the intention of the ladies to restore Mt. Vernon to the condition it was in when Washington lived there. His half-brother, hawrenoe, selected the present site of the main building, and even after more than a century's wear and tear (one hundred and fourteen

The coldness and usually disagreeable state of the weather during the month of February, in this quarter, would seem to forbid the possibility of a 'grand flourish' in the way of an inauguration, on the 22nd of that month, 1860, the anniversary of his birthday; hut the 4th of July, the nation's birthday, I have no doubt, will be selected for an imposing ceremony.

No words would seem to eulogistic to express the thanks of every true American heart for the great and noble act, so energetically carried forward and accomplished by that patriotic daughter of South Carolina, Miss Ann Pamelia Cunningham, who, in spite of much opposition, causing many a noble heart to falter, has encouraged her sisters throughout the Union to prompt action in behalf of this enterprise. She has won a name which will never be forgotten.—Correspondence of Philadelphia Press, Oct. 17th.

I consider your Restorative as a very wonderful invention, quite efficacions as well as agreeable.

PROF. Woon-About two years ago my bair commenced failing off and turning gray; I was last becoming baid, and had tried many Remedes to no effect. I commenced using your Kestorative in languages as the second of the second my har firmly. It began to fill up, grow out, and turn back to its former color, (black.) At this time it is fully restored to its original color, health, and appearance, and I cheerfully recommend its net to all.

Other grades however, of the prices ruling at Chicago—awing to the abort supply there and the calculations which had en made on a continuance of large receipts-sellers was no perceptible change in flour. Sales about a thouad barrels at \$4 for Superfine, \$1.50 for choice counhet expert, need something of a reaction. The best heavy hogs did not go outside of \$5,75 and there were few buyers who would come up to this mark. Hoga under 150 pounds ranged from \$4,50 to \$5, and went rather slowly. Circussari Pore and Provision Mainti.—The Cincinnat Genetle, of Wednesshop, has the following:

The packing searon has commenced fairly, from sixteen to twenty thousand hogs having been cut within the last week, and the receipts are now increasing seeafly, with hyporable weather. The receipts to-day were \$5.00 head, Tries opened at \$5.00,00 hu, and under a pressure for hogs to fill contracts, rates were considering yesterday to \$6. To-day, however, with two or three veceptions, there were no largest at year \$5.75, and not many at that, while the offerings for the last of this week and the whole of max, at that figure were practy from The market may be called \$6.01 at \$5.70 hu for the last of this week and the whole of max, at that figure were practy from. The market may be called \$6.15 at \$1.00 lbs next, for good average againties. Packers are continue. They see mothing to justify invostments at current figures. There is no demand of one sequence for new products, and the process that could be realized would make a tost upon hogs bought at \$5.75. There is also an absence of the other influences that were brought to bear last year to sastain the market, and chalers are not disposed to hase their operations upon mere anterpations. The demand for and the value of products, will regulare the price of logs more generally this season than herefore. This is a feature that partice who are beying logs in the country should not loss sight of. There is an impression that an average of \$5 would be safe. At this figure, or an cignit to a quarter more, the regular packets would be safe, at this highest market in the West. Louisville packers are out of faith stocycles. Their veed fail before \$0, which include the should produce, should indicate a considerable increase in the road of the safe, and they show no disjustition to compete the season at the protect that are change protections.
